

# Angle compensator ESWA-3

FESTO

Part number: 191205

## Data sheet

| Feature                           | Value                            |
|-----------------------------------|----------------------------------|
| Angle compensation +/-            | 15 deg                           |
| Short type code                   | ESWA                             |
| Mounting position                 | optional                         |
| Design                            | Ball joint                       |
| Correlation to suction-cup holder | Size 3                           |
| Operating pressure                | -0.95 bar ... 4 bar              |
| Corrosion resistance class CRC    | 1 - Low corrosion stress         |
| Ambient temperature               | 0 °C ... 60 °C                   |
| Product weight                    | 9 g                              |
| Type of mounting                  | Via male thread                  |
| Suction cup mounting              | M4                               |
| Pneumatic connection              | M4                               |
| Note on materials                 | RoHS-compliant                   |
| Material seals                    | NBR                              |
| Material housing                  | Aluminium<br>Nickel-plated brass |
